### Neilmed IOS Application Documentation

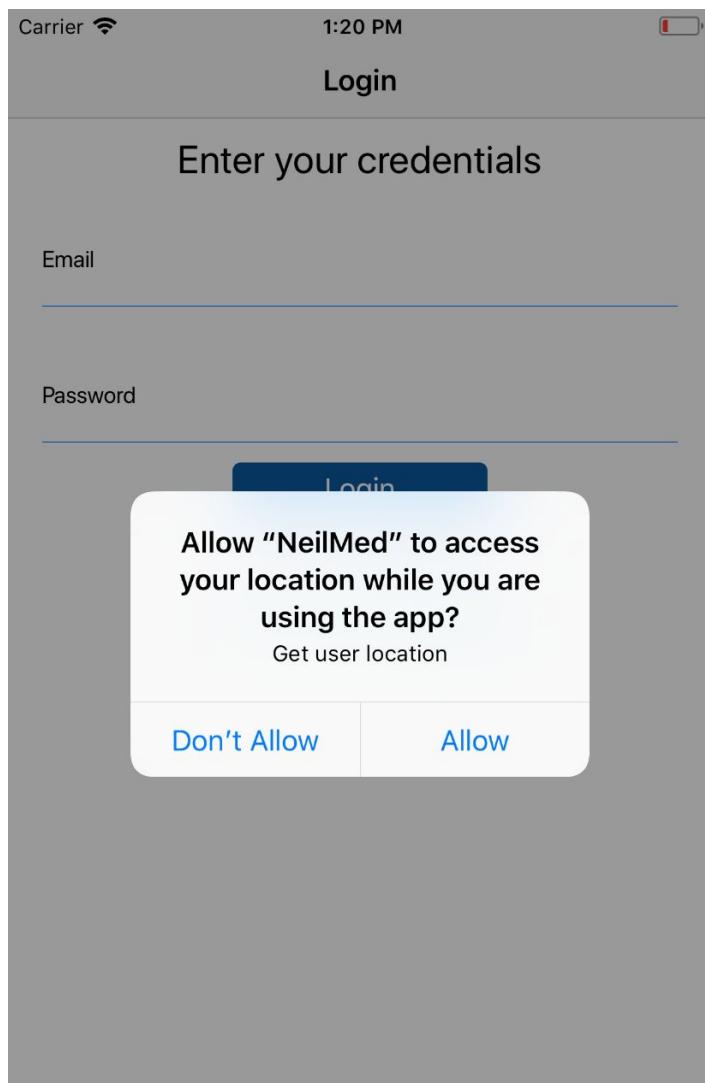

Version 0.8

Date: July 2018

The content of this document is confidential and cannot be disclosed or shared with anyone other than the customer it is intended for.

1. Download the app from <http://salesrep.neilmed.com>
2. Install the application
3. Add this app under “trusted” in iOS device (settings ->general -> trust this device)  
This step is required because we use enterprise account for distributing the application
4. Open the application

we should allow the access to location - without that the app will not work

## Enter your credentials

There are two type of visits in this application

1.Express visit

we use this visit schedule visits suddenly, i.e, for the customers who are not there in our database

## 2. Schedule visits

This is to schedule visits for customers who are already there in our database

Express Visit

Carrier 3:23 PM

Home Express Visit Submit

Name\*  
rahul

Phone

Visit Type\*   
Meals with Doctor

Here we are showing how to create an express visit. We will walkthrough the entire process

Enter the mandatory details here

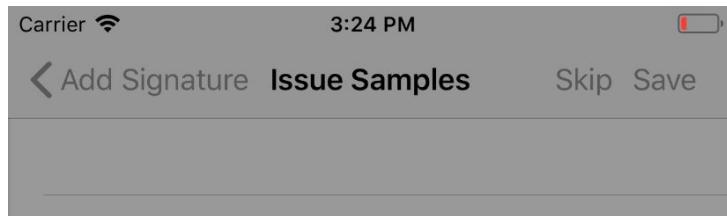

In phone or email write any one of the data

Express visits are done when we suddenly meets a new customer whose data is not in our database, so in between we can ask them to sign for the visit

After getting the sign we can save the signature. There is also an option to skip the signature

If we have added inventory products to our list we can issue samples here

here we are ordering products from inventory stock to distribute to customers

Choose the address to deliver the product

The image shows a smartphone screen displaying a mobile application interface. At the top, there are status icons for carrier, signal strength, time (7:50 PM), and battery level. Below the status bar, the navigation bar includes a back arrow, the text "Select Address", the text "Confirm Order", and a "Order" button. The main content area displays a list of delivery details: a calendar icon followed by "Jun 11, 2018 at 7:50:14 PM", a person icon followed by "Lini Paul", a phone icon followed by "9113625398", and an envelope icon followed by "lini@neilmed.com". Below this, a list item shows a clipboard icon followed by "SinuGator (SG-ENU-US)" and "1 \* 36" to its right. A small number "36" is also visible near the bottom right of this list item. At the bottom of the screen, there is a list of four placeholder addresses: "rqwe", "erqw", "qwerqw", and "ewqrqw - ewqrqw", each preceded by a location pin icon.

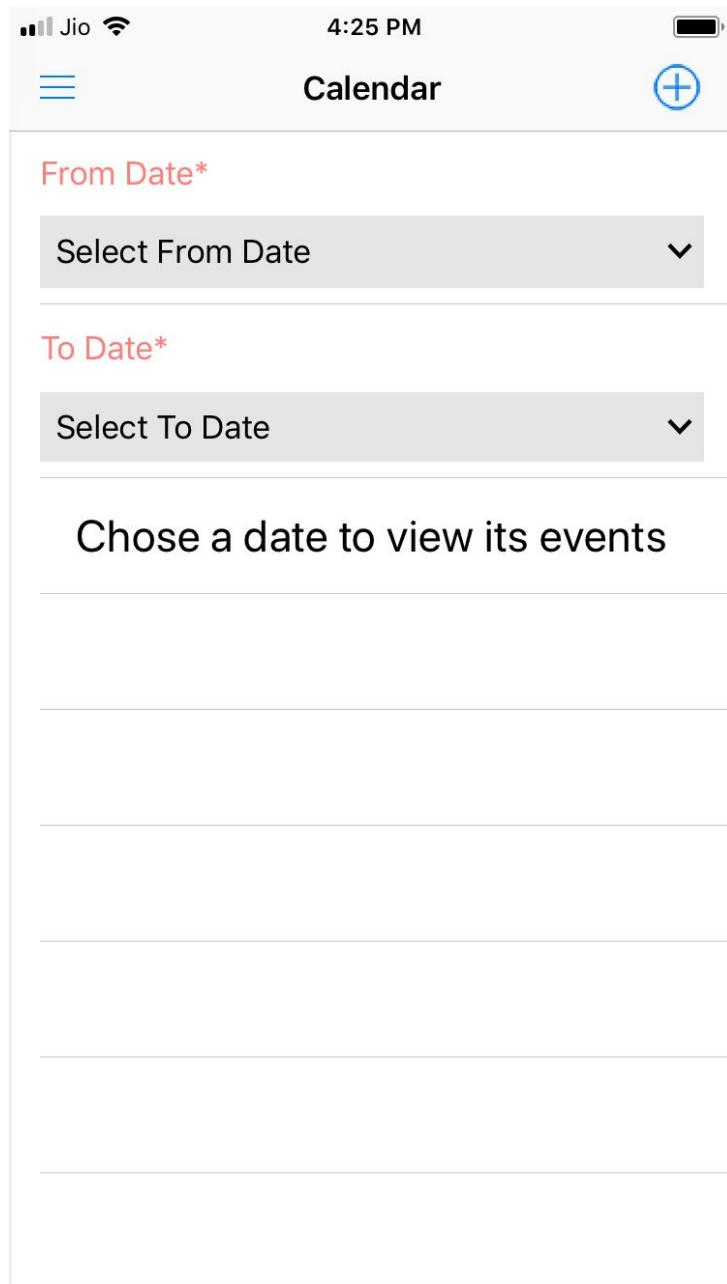

Confirm the order after checking whether the details are correct

The screenshot shows a mobile application interface titled "Stock Order". At the top, there is a header bar with icons for signal strength, battery level, and time (4:25 PM). Below the header, the title "Stock Order" is centered, with a blue circular "plus" icon to its right. The main content area has a light gray background and displays a table with two columns: "Date of Order" and "Products". A single row of data is shown, corresponding to the entry in the table below. At the bottom of the screen, there is a navigation bar with two items: "Inventory Stock" (represented by a cube icon) and "View Stock Order" (represented by a medical kit icon).

Date of Order	Products
16 Jan 18	SinuGator (SG- ENU-US) NasaMist Isotonic Saline Spray Can 75ml (NM-0NB-48-ENU- USL) NeilMed SinuFrin

**Inventory Stock**      **View Stock Order**

When we click on view stock order we can see the above window. It will show the date of order and the product ordered

when we click on calendar in the side menu and specify the dates of events you required, it will show all the events in that date
